

BOOMERANG'S

Gourmet Veggie & Meat Pies

Oven (recommended)

Thaw overnight in your refrigerator.

Pre-heat your oven to 350°. Remove pie(s) from plastic wrappings. Place pie(s) on sheet pan and bake for 20 minutes or until center is hot. **Double the time if frozen.**

Microwave then Oven

Take pie(s) out of plastic wrappings. Defrost in microwave for 2-3 minutes while pre-heating oven to 350°. Remove from microwave and place pie(s) on sheet pan and bake for 10-15 minutes to crisp up the pie(s).

Microwave

Take pie(s) out of plastic wrapping. Place in microwave for 3-5 minutes on high power. Using this method may cause the crust to not be as strong, but the pie will still taste great!

Consume or freeze within two days of purchasing.
